PROFESSIONAL SUMMARY

Informatics student at President University with a well rounded foundation across artificial intelligence, full stack web development, and project leadership. Comfortable moving between technical execution and organisational responsibility, from building working software end to end to coordinating teams and stakeholders. Recognised as Google Student Ambassador for driving technology adoption across campus, and active in student leadership through the Faculty of Computer Science. Known for being a fast, reliable learner who takes ownership of a task from planning through to delivery, and who communicates clearly with both technical and non technical audiences.

EDUCATION

President University , Bachelor of Informatics (S.Kom.), Computer Science	Sep 2024 – Present
- GPA: 3.65 / 4.00. Jababeka Scholarship Recipient. - Leadership: Google Student Ambassador (Apr 2026–Present), Vice Officer, Student Welfare and Advocacy, BEM Computer Science (Sep 2025–Present).	
Pesantren Hidayatunnajah , High School Diploma	Jul 2020 – May 2023
Award: Presenter, Scientific Work (Mar 2023).	

SKILLS

Technical Skills	Professional Skills
- Programming: Python, JavaScript, TypeScript, PHP, SQL, Java - Web Development: Next.js, React, Node.js, Flask, Tailwind CSS - AI and Machine Learning: TensorFlow, OpenCV, YOLOv11, LangChain, Google Gemini API - Databases: MySQL, PostgreSQL, SQLite, Firebase - Tools: Git, Figma, VS Code, Android Studio, Google Workspace	- Comfortable working across technical and organisational responsibilities - Clear written and verbal communication with diverse audiences - Structured project ownership from planning through delivery - Fast learner, adaptable across new tools and domains - Collaborative team player with leadership experience

CERTIFICATIONS

Machine Learning Specialization (3 courses, Andrew Ng), Stanford Online and DeepLearning.AI, via Coursera. Jul 2026. Google AI Professional Certificate (7 courses), Google, via Coursera. Jul 2026. Introduction to Generative AI Learning Path (4 course specialization), Google Cloud, via Coursera. Jul 2026. Responsible AI and Risk Management, IBM SkillsBuild. Jul 2026. AI Efficiencies and Governance, IBM SkillsBuild. Jul 2026. Copilot Best Practices, Ethics and Regulatory Implications, Microsoft, via Coursera. Jul 2026.
--

PROJECTS

AI Roadmap, Full Stack Developer <i>Python, Flask, Next.js, OpenCV, Dlib, PostgreSQL</i>	Dec 2025
- Built an adaptive educational platform combining a Decision Support System for personalised learning recommendations with a real time biometric identity verification pipeline. - Connected a Next.js frontend to a Python Flask backend through RESTful APIs, managing the system end to end from architecture through deployment.	
Reservation Hotel, Project Manager and Full Stack Developer <i>PHP, MySQL, JavaScript, XAMPP/Laragon</i>	Feb – Apr 2024
- Owned the full project lifecycle for a hotel reservation system, from requirements gathering through deployment, managing both development and coordination. - Designed the database schema to handle real time room inventory and prevent booking conflicts.	

Object Waste Detection System, Machine Learning Developer

Sep – Oct 2025

Python, YOLOv11, OpenCV, Ultralytics

- Built and evaluated a computer vision model across multiple training stages, achieving 88.54 percent Precision and 85.12 percent mAP at 50.
- Delivered a working real time interface, translating the model into a practical, user facing tool.

EXPERIENCE

Google Student Ambassador, Google, President University

Apr 2026 – Present

- Appointed as the official Google representative at President University, driving digital literacy and AI adoption across the campus community.
- Design and deliver interactive tech workshops on Google Workspace and Google Gemini (Generative AI) to students from both IT and non-IT backgrounds.
- Collaborate with student organisation leaders to integrate Google digital management solutions, transforming conventional workflows into centralised, collaborative systems.

Vice Officer, Student Welfare and Advocacy (SWA), BEM Faculty of Computer Science, President University

Sep 2025 – Present

- Coordinate communication between students and faculty to advocate for student needs and welfare initiatives.
- Organise student welfare programmes and represent student interests in faculty-level discussions.
- Develop leadership, strategic communication, and problem-solving skills through active organisational involvement.

IT Support Specialist, PT. Beritahu Media Digital Teknologi

Jun – Aug 2024

- Managed the TikTokSound programme across 100 Remote Desktop Protocol (RDP) instances per day, producing 6,000 TikTok videos.
- Monitored and controlled all active projects to ensure continuous and stable operations across multiple platforms.
- Created and managed audio content distributed across TikTok, YouTube, Amazon Music, Deezer, Tidal, and CapCut.
